PROFILE

With a strong interest in software development, I am a motivated school-leaver committed to learning and growing in this dynamic field. Passionate about problem-solving and embracing new technologies, I am eager to contribute to innovative projects and cooperate with experienced professionals.

PROJECTS

Full stack project using MERN stack

Full Stack Developer

<https://cbc-frontend-xi.vercel.app/>

- Developed a responsive web application using MongoDB, Express.js, React, and Node.js.
- Implemented user authentication, CRUD operations, and RESTful APIs.
- The application connected it to a cloud-hosted MongoDB Atlas database.

University mini project using HTML/ CSS

Front-End Developer

https://sandun440.github.io/Environment_pollution/

- Designed clean and responsive layouts using HTML and CSS.
- Used semantic HTML for better accessibility and structured content presentation.

Python mini project

Developer

https://github.com/sandun440/Python_mini_project.git

- Built a console-based Python application.
- Applied clean code practices and modular programming.

EDUCATION

Bachelor of Software Engineering (Hons)

2023 - present

The open University of Sri Lanka

Full Stack Web Development Certificate Course

2024 - 2025

Skyrek Academy
